Case Management Software for the Independent Case Manager or Small Group:

TCS and CMSA Celebrate the One Year Anniversary of the Acuity AnyWare Software

Auburn, California and Little Rock, Arkansas / InsuranceNewsNet / November 17, 2009.

The Case Management Society of America (CMSA) and TCS Healthcare Technologies (TCS) are celebrating the one-year anniversary of the launch of Acuity AnyWare. Acuity AnyWare is a web-enabled software program that helps case managers support their patients and clients.

"Since using the Acuity AnyWare software, my company has improved our clinical workflows by integrating our information into one platform" notes Jackie Perkins, RN, BSN, CCM, CWCP, MSCC, CNLCP, LNCC, President of JSC Consulting. She adds further "Acuity AnyWare has made us more productive, more marketable and has increased the level of job satisfaction of my staff."

CMSA Executive Director, Cheri Lattimer, RN, BSN, adds "CMSA is pleased to continue offering the Acuity AnyWare application as a membership benefit. The hosted solution supports both individual case managers and small groups without the need to install expensive software or have technical support to maintain it. The application allows users to transition from a manual system to an electronic system that is specifically suited to the activities of a nurse case manager."

To learn more, case managers should go to www.tcshealthcare.com and click on "play video" under the Acuity AnyWare logo.

Acuity AnyWare is a software solution that is only offered to CMSA members. If a case manager is not a member, a person can join CMSA as an individual *or* corporate member to qualify. There are no long-term contracts. A subscriber may terminate their Acuity AnyWare software agreement at any time with 30 days written notice.

For more information about TCS Medical management software applications, please contact John Sekerak (jsekerak@tcshealthcare.com) at (530) 886-1700.

TCS Healthcare Technologies is a leading provider of software and clinical solutions that improve population health management strategies and effectiveness for health plans, insurers, providers, third party administrators, medical management companies, and other health care organizations, who serve both the private and public sectors. TCS applications support a wide range of care management transactions ranging from utilization management to complex, case management interventions. For more information about TCS, call (530) 886-1700 ext. 211 or go to www.tcshealthcare.com.

Case Management Society of America is an international non-profit 501(c)(6) multi-disciplinary professional association established in 1990. CMSA is dedicated to the support and advancement of the case management profession through educational forums, networking opportunities, legislative advocacy, and establishing standards to advance the profession. The association is based in Little Rock, AR and serves more than 20,000 members/subscribers and 70 affiliate and pending chapters. Since its inception, CMSA has been at the forefront of setting professional standards for the industry, which allows for the highest level of efficiency and integrity, as well as developing national and local leaders who are recognized for their practice and professional excellence. For more information on CMSA, call CMSA at (501) 225-2229 or go to www.cmsa.org.
